

CALIFORNIA'S SMART GRID

Smart Grid Symposium

Speaker Profile

Lee S. Krevat, Director, Smart Grid San Diego Gas & Electric

Lee Krevat is director of the smart grid initiative for Sempra Energy's California regulated utilities, San Diego Gas & Electric (SDG&E) and Southern California Gas Company.

Krevat leads enterprise-wide smart green grid strategy, policy and project alignment. Krevat's prior positions at SDG&E include director of program delivery, where he was responsible for overseeing IT for advanced technology projects and the development of new systems to improve the operating efficiency and customer experience. Krevat was also the director of IT strategy and business partnership where he worked to align strategic direction between IT and the utility business units, as well as director of infrastructure engineering & operations.

Before joining Sempra, Krevat led the Technology Transfer Team and Software Process Improvement Team at Tandem Computers.

Krevat holds a Bachelor of Science in applied mathematics/computer science from Carnegie Mellon University.

SDG&E is a regulated public utility that provides service to 3.4 million consumers through 1.4 million electric meters and more than 840,000 natural gas meters in San Diego and southern Orange counties. Southern California Gas Company is the nation's largest natural gas distribution utility, providing safe and reliable energy to 20.5 million consumers through 5.7 million meters.

Sempra Energy, based in San Diego, is a Fortune 500 energy services holding company with 2008 revenues of nearly \$11 billion. The Sempra Energy companies' 13,600 employees serve about 29 million consumers worldwide.
